

# **THE QURAN AND SCIENCE EXHIBITION**

- 
- **Travelling exhibition presenting scientific miracles in the Holy Qur'an through interactive experiences.**
  - **One of the main purposes of scientific exhibitions is to contribute science communication and informal education through interactive experiences that narrate laws of physics, practices of chemistry, wonders of biology, observations on astronomy and so forth.**
  - **The exhibition's major ideas are to show how Allah created humans, animals, and the universe in absolute perfection.**
  - **Modern and state-of-the-art exhibition and technologies are merged with the eternal messages of the Holy Quran and presented as a unique versatile travelling exhibition.**

# The exhibition is divided into three sub-themes
